

BIOWOOD GARAGE DOORS

BAL - 29

Biowood cladding meets the requirement for bush fire resisting timber and is deemed to be acceptable to withstand exposure up to BAL-29 conditions, as specified in AS3959-2018 Construction of Buildings in bushfire prone areas Appendix F.

**TERMITE
RESISTANT**

**WATER
RESISTANT**

**NATURAL
TIMBER**

Dynamic's Biowood garage door retains the natural timber look, low maintenance and meets the standard for fire safety.

There are several good reasons to choose a Biowood garage door for your home. The Biowood wood composite products are created using 0.85 density natural cellulose fibre from plantation harvested wood, and combined with resin. It retains the aesthetic natural look of wood & feel, is a lightweight, durable product for building application, provides a high degree of water resistance, does not bleach, split, crack, and is suitable for bushfire regions up to BAL-29 rating and marine applications. The product is termite resistant, low maintenance and is green certified by Global Green Tag.

With Biowood sanded finish and unique manufacturing process, these doors are not only beautiful to look at, but also robust, versatile and designed to withstand the Australian harsh climate conditions.

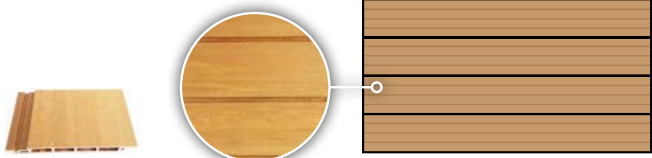

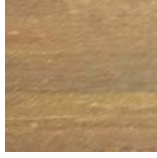

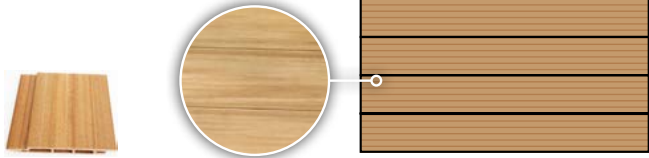

Benefits of Biowood Garage Door

- Retaining the natural aesthetic timber look and feel
- Light weight
- Designed to withstand the harsh climate conditions - no splinters, cracks, warping, cupping or rot
- Durable – water, mould, mildew, and termite resistant
- Bushfire resistant (conforms up to BAL-29 as per AS3959-2018).
- Time tested suitability for marine, intertidal and salt spray environment
- UV stable under normal environmental conditions, even in full sun, when coated with Biowood water based coating
- Easy and concealed installation
- Virtually maintenance free – depending on north orientation, coating will last for 3 times longer than normal UV coating.
- Environmentally friendly – sustainable timber alternative, fully recyclable
- Proven product in Australia harsh environment
- Can be re-sanded & re-sealed
- Trusted brand by Global Green Tag

Profile and Colour Options

Providing Australian homeowners with both durability and style, the Biowood® garage doors come in two attractive colours: Spotted Gum and Weatherwood.

These garage doors are constructed using Biowood® architectural profiles and are available in 150mmx18mm Shiplap and 88mmx12mm Tongue & Groove profiles.

Profiles	Colours	
	Spotted Gum	Weatherwood
<p>150mmx18mm Shiplap</p> 		
<p>88mmx12mm Tongue & Groove</p> 		N/A
